Livonia, MI 48150

ERG Environmental Services is pleased to offer an important First Responder safety training.

ERG is now in open-enrollment for First Responder Training: First Aid/CPR/AED/BBP certified.

This course will provide our clients with affordable training that covers:

American Heart Association First Aid / CPR / AED Certified Training

Legal Obligations associated with First Responders

General Emergency Care Concepts

Preventing Disease Transmission

First Aid and the Law

Review the use of AED's: Automated External Defibrillators

Warning signs of medical illness

CPR-cardiopulmonary resuscitation

Specific First Aid Topics: Burns, Bites, Injuries to the head, injuries to the eyes

Therapeutic use of Heat and Cold

This is a 2-year certificate

A well-trained team is a confident team.

**Due to the content of this class, there are only 12 seats available.**

---

<u>Attendees (Per Company)</u>	<u>One Day Rate</u>
<b>1-2</b>	<b>\$150.00</b>
<b>3+</b>	<b>\$125.00</b>

If several people/group at your facility need training, ERG recommends on-site training that can be tailored to address specific operations, plans, and procedures at your facility.

ERG is ready and able to help you establish, improve and/or maintain a safe workplace and a successful regulatory compliance program. If you are interested in other ERG EH&S services, including (but not limited to) on-site training courses, integrated contingency planning, permitting and environmental/safety/hazardous waste compliance audits, please contact us.
