Re: Final Federal TSCA PCB Commercial Storage Approval, Environmental Recycling,
Bowling Green, Ohio

Dear Mr. Hendrick:

Enclosed is the final federal Toxic Substances Control Act (TSCA) polychlorinated biphenyls (PCBs) commercial storage approval for Environmental Recycling's facility located at 527 East Woodland Circle, Bowling Green, Ohio. The approval is a renewal of a PCB commercial storage approval issued pursuant to 40 C.F.R § 761.65.

On March 7, 2017, the U.S. Environmental Protection Agency issued the draft federal TSCA approval for public comment. The draft Federal TSCA approval was publicly noticed in the *Sentinel-Tribune* on March 7, 2017. A copy of the draft federal TSCA approval was available for review at the Wood County District Public Library and on the EPA website. The public comment period was open through April 7, 2017, and EPA received no comments or meeting requests on the draft approval. As a result, EPA is now issuing Environmental Recycling a final TSCA approval.

This approval may be withdrawn, or further conditions may be added to it at any time, if EPA has reason to believe that operation of the storage facility represents an unreasonable risk of injury to human health or the environment. Withdrawal of this authorization or the imposition of further conditions may also result from future EPA rulemaking or development of guidance with respect to PCBs. Moreover, violation of any conditions included as part of this authorization may subject Environmental Recycling to an enforcement action and/or the termination of this approval.

It is the responsibility of you and your company, Environmental Recycling, to ensure that all applicable provisions of TSCA and the federal PCB regulations are followed. Violation of any of the applicable provisions may be cause for rescission of this approval. Furthermore, this approval does not relieve Environmental Recycling of the responsibility to comply with all other Federal,

State and local regulations and ordinances for transportation, siting, operation and maintenance of its facility.

EPA reserves the right for its authorized representatives to observe Environmental Recycling storage activities and inspect records that the company is required to maintain under the federal PCB regulations and this approval, during normal operation and at other reasonable times.

If you have questions concerning the final federal TSCA approval, please contact Lisa Graczyk, of my staff, at (312) 353-3219.

Sincerely,

Ignacio L. Arrázola
Acting Director
Land and Chemicals Division

AUTHORIZED ACTIVITIES

In reference to the application of Lamps Inc., dba Environmental Recycling for an Ohio Hazardous Waste Facility Installation and Operation Permit under Ohio Revised Code (ORC) Chapter 3734 and the record in this matter, you are authorized to conduct at the above-named facility the following hazardous waste management activities:

- ◆ Storage of hazardous waste in containers

PERMIT APPROVAL

Chris Korleski, Director
Ohio Environmental Protection Agency

This permit approval is based upon the record in this matter which is maintained at the offices of the Ohio Environmental Protection Agency. The Director has considered the application, accompanying information, inspection reports of the facility, information disclosed by the facility as required by ORC 3734.42, and such other information as is relevant to the operation of the facility. The Director has determined that the facility meets the requirements and conditions to subsequently operate the facility under ORC Chapter 3734, and the applicable rules adopted thereunder.

Entered into the Journal of the Director this 27 day of MAY, 2008.

By MILES J. DAVENPORT of the Ohio Environmental Protection Agency.

Re: *Environmental Recycling*
Fluorescent Lamp Recycler - LQG
Site Visit
Wood County
US EPA ID No.. OHR 000 034 025

Mr. Mike Dolkowski, President
Environmental Recycling
527 East Woodland Circle
Bowling Green, Ohio 43402

Dear Mr. Dolkowski:

On March 13, 2001, Ohio EPA visited Environmental Recycling's facility located at 527 East Woodland Circle, Bowling Green, Ohio 43402. Additional information found on the process description/waste activities summary page was provided on December 12, 2001. I apologize for the delay in providing you with this inspection report and for any inconvenience the delay may have caused. The purpose of the visit was to determine how Environmental Recycling manages fluorescent lamps, if recycling occurs at the site, and if so, how each product/waste of the recycling operation is handled. An inspection of the lamp processing operation was conducted to determine Environmental Recycling's compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). Based on this inspection, I found that Environmental Recycling was operating in compliance with the state hazardous waste laws.

An equally important reason, for our visit, was to inform facilities managing lamps how the Universal Waste Rule for hazardous waste lamps, when adopted, would impact their business. Environmental Recycling was represented by you and Mr. Erik Thayer, General Manager. The Ohio EPA was represented by Mr. Gary Deutschman, DHWM, NWDO; Mr. Randy Ohlemacher, DHWM; and myself.

During our visit, we discussed how fluorescent lamps will be required to be managed when the Universal Waste Rule for fluorescent lamps is adopted. We took a tour of your facility and observed the bulb crusher and mercury recycling operations. We learned that you recycle approximately 1.5 million lamps each year. Following the inspection, flow diagrams of the lamp processing operation and mercury retorter were provided by fax.

Bob Taft, Governor
Maureen O'Connor, Lieutenant Governor
Christopher Jones, Director

Mr. Mike Dolkowski

Page 2

Additional materials accepted for recycling include the "demanufacturing" of off-spec products, mercury thermostats, PCB and non-PCB ballasts, polyester rolls to recover aluminum, CRT's, and millions of pounds of batteries.

Enclosed you will find a copy of the checklist that I completed during the inspection. Should you have any questions, please feel free to call me at (614) 644-2966. I appreciate both the time you spent answering our questions during the inspection, and for the thorough plant tour.

Sincerely,

Andrew D. Kubalak

Required Posting

Effective Oct. 13, 2004, Section 4123.54 of the Ohio Revised Code requires notice of rebuttable presumption. Rebuttable presumption means an employee may dispute or prove untrue the presumption (or belief) that alcohol or a controlled substance not prescribed by the employee's physician is the proximate cause (main reason) of the work-related injury.

The burden of proof is on the employee to prove the presence of alcohol or a controlled substance was not the proximate cause of the work-related injury. An employee who tests positive or refuses to submit to chemical testing may be disqualified for compensation and benefits under the Workers' Compensation Act.
