

# LANDFILL FREE ABSORBENT PROGRAM!

ERG Environmental Services & Great Lakes Filters are proud to announce a unique LANDFILL FREE absorbent partnership  
1.855.459.0021

ERG and GLF have developed a low cost proprietary absorbent with all the benefits of super absorbent pads, pillows and socks while handling soiled absorbents in a low cost, environmentally friendly method instead of a landfill.

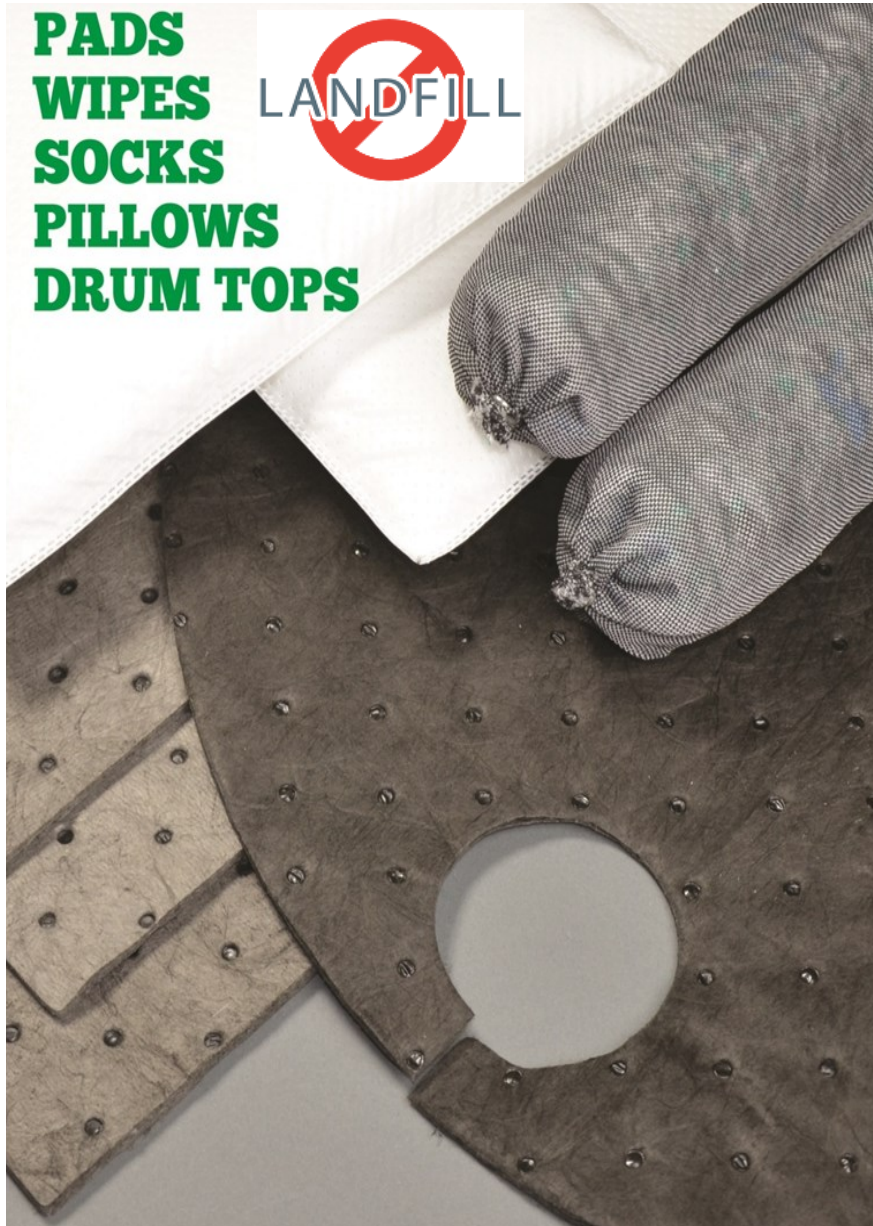

Company wants to be LANDFILL FREE?

Tired of paying the high cost of "Waste to Energy"?

Now here's a cost effective option!

Our ARP program offers a superior absorbent, then when soiled and ready for disposal, ERG handles the pickup. Using our proprietary process, we will terminate and repurpose the material, provide a certificate to document the material was handled correctly. All aspects of our program meet or exceed all U.S. Environmental requirements and provides peace of mind knowing that the waste is handled responsibly.

Contact us today for more information and receive a FREE environmental evaluation!
